

HASA's Mentoring Program

As new administrators enter the profession, a need to nurture, cultivate and assist these professionals arises. HASA started something wonderful with the two *Administrative Pearls* workshops held in the Fall of 2009. Opportunity to meet, share and collaborate availed itself. The sessions were attended by non-tenured as well as veteran and retired administrators. Several pearls of wisdom were shared. Everyone came away from the experience with a sense of fulfillment and satisfaction.

To that end, the goal to mentor is critical to continual growth and survival. HASA is in the process of developing a mentoring program which can be beneficial to those with a common interest. The goal is to launch the program in the fall of 2010. However, your input is needed now to facilitate planning. Principals and assistant principals from elementary, middle school and high school levels are encouraged to respond.
